# CONTENTS

## TRANSACTIONS

	Page
ARAKI, T.: Physiologisch-anatomische Untersuchungen über die Wachstumsverhältnisse des Mesokotyls von Gramineen im Dunkel und bei der Belichtung (Mit 45 Tabellen).....	69
FUJITA, T.: Ueber die Organstellung bei Maiskolben (Mit 31 Textfiguren) .....	113
HAMADA, M.: Studien über die Mykorrhiza von <i>Galeola septentrionalis</i> REICHENB. f. Ein neuer Fall der Mykorrhiza-Bildung durch intraradikale Rhizomorphen (Mit Tafel I-II und 25 Textfiguren) .....	151
HAMADA, M.: Physiologisch-morphologische Studien über <i>Armillaria mellea</i> (VAHL.) QUÉL. mit besonderer Rücksicht auf die Oxalsäurebildung. Ein Nachtrag zur Mykorrhiza von <i>Galeola septentrionalis</i> REICH. (Tafel IX und 15 Textfiguren) .....	387
HANDA, T.: Some anatomical notes on <i>Cycas revoluta</i> , especially on its anomalous secondary growth (Plate III and 18 text-figures). .....	285
IWATA, J.: Studies on chromosome structure I. Spiral structure of chromosomes in <i>Trillium Smallii</i> MAXIM. (Plates V-VI) .....	365
IWATA, J.: Studies on chromosome structure II. The attachment chromomeres (Plate VII and 4 text-figures) .....	375
KAGAWA, F.: Studies on the inheritance of a type of large-grained, partially sterile rice-plant (With 4 text-figures and 22 tables) ..	1
KAGAWA, F.: Alteration of characters in crop plants induced by X-ray irradiation (With 3 text-figures) .....	35
KAGAWA, F.: Chimeras in sweet potatoes (With 11 text-figures) ..	43
KAGAWA, F.: The effect of abnormal temperature on the course of pollen formation in a genus hybrid <i>Triticum compactum</i> × <i>Secale cereale</i> (With 14 text-figures and 5 tables) .....	55
MATSUMURA, S.: Weitere Untersuchungen über die pentaploiden <i>Triticum</i> -Bastarde X. Kreuzungsversuch mit gemischtem Pollen (Mit 2 Textabbildungen und 4 Tabellen) .....	477
NOGUTI, Y., OKUMA, K. and OKA, H.: Studies on the polyploidy in <i>Nicotiana</i> induced by the treatment with colchicine. I. General observations on the autotetraploid of <i>Nicotiana rustica</i> and <i>N. Tabacum</i> . (4 text-figures) .....	309

	Page
NOGUTI, Y., OKA, H. and ÔTUKA, T.: Studies on the polyploidy in <i>Nicotiana</i> induced by the treatment with colchicine II. Growth rate and chemical analysis of diploid and its autotetraploid in <i>Nicotiana rustica</i> and <i>Nicotiana Tabacum</i> (10 text-figures)...	343
SIGENAGA, M.: Artificial uncoiling of the chromonema spirals with neutral salt solution (Plate VIII).....	383
SUGAWARA, T.: Studies on the formation of ascorbic acid (vitamin C) in plants. 1. The influence of light on the ascorbic acid contents in various etiolated seedlings (With 3 text-figures and 4 tables) .....	141
SUGAWARA, T.: Studies on the formation of ascorbic acid (vitamin C) in plants. 2. The influence of radiation of different wavelengths on the ascorbic acid content in etiolated seedlings (4 text-figures and 1 table).....	325
SUGAWARA, T.: Inducing the flowering and the fruiting of sweet potato by water culture (3 text-figures).....	335
SUZUKI, H.: Influence of physical and chemical factors upon the formation of appressoria in the conidia of <i>Piricularia Oryzae</i> . I. Influence of oxygen (Plate IV) .....	321
TERAO, H. and MIDUSIMA, U.: Some considerations on the classification of <i>Oryza sativa</i> L. into two subspecies, so-called " <i>Japonica</i> " and " <i>Indica</i> " (10 figures and 21 tables) .....	213
YUASA, A.: Critical observations on the origin of the blepharoplast and centrosome in plants.....	259
YUASA, A.: Studies in the cytology of Pteridophyta XVIII. The structure of the chloroplast of some Pteridophytic plants (With 7 text-figures) .....	465

## ABSTRACTS

(Papers, of which the title only is cited, are marked with an \*)

	Page	Entry
ABE, K.: Ueber die Befruchtung und die folgende erste Kernteilung bei <i>Sargassum</i> .....	(1)	1
ADATI, H.: Einfluss einiger nichtpathologischer Mikroben auf das Wachstum der Kulturpflanzen. Erster Bericht. Einfluss einiger heterotrophischer Bakterien auf das Wachstum der Kulturpflanzen.....	(1)	2
ADATI, H.: Untersuchungen über die Rhizosphäre der Pflanzen. Zweiter Bericht. Ueber die Einflüsse der verschiedenen Kulturpflanzen auf die Mikrobenezahl der verschiedenen Bodenarten in Formosa.....	(31)	118

	Page	Entry
AKAI, S.: On the anatomy of galls on <i>Crepis japonica</i> caused by <i>Protomyces Inouyei</i> .....	(31)	119
AKAI, S.: Studies on the pathological anatomy of the hypertrophied buds of <i>Camellia japonica</i> caused by <i>Exobasidium Camelliae</i> .....	(31)	120
AKAI, S.: On the anatomy of <i>Protomyces</i> galls of peduncles of Dandelion.....	(32)	121
AKEMINE, M.: The intervarietal difference and the effect of environmental factors in respect to sterility in paddy rice.....	(32)	122
AKEMINE, M.: Analysis of variance as applied to the intervarietal difference of sterility in paddy rice.....	(32)	123
AKIMOTO, S.: Einige Versuche über die Beschleunigung des Aufblühens bei der Süßkartoffel.....	(33)	124
AKIYAMA, S.: On the systematic anatomy of the leaves of some Japanese carices XVII.....	(1)	3
AKIYAMA, S.: On the systematic anatomy of the leaves of some Japanese carices XVIII, XIX, XX.....	(33)	125
*ARAKI, T.: Physiologisch-anatomische Untersuchungen über die Wachstumsverhältnisse des Mesokotyls der Gramineen im Dunkel und bei der Belichtung.....	(33)	126
ASAHINA, Y.: Mikrochemischer Nachweis der Flechtenstoffe VIII-IX. Mitteilung.....	(1)	4
ASAHINA, Y.: <i>Ramalina</i> -Arten aus Japan.....	(2)	5
ASAHINA, Y.: Ueber den Chemismus der Flechten der Cocciferae ( <i>Cladonia</i> Subgenus <i>Cenomyce</i> ).....	(33)	127
ASAHINA, Y.: <i>Ramalina</i> -Arten aus Japan. <i>Myelopoea</i> WAIN- <i>Compressisculae</i> WAIN.....	(34)	128
ASAHINA, Y.: Lichenologische Notizen XI. Ist <i>Chaudhuria</i> ZAHLBR. wirklich eine selbständige Gattung?.....	(34)	129
ASAHINA, Y.: <i>Cornicularia</i> -Arten aus Japan.....	(34)	130
ASIDA, Z.: Thermal stimulation and thermal adaptation of <i>Aldrovanda</i> leaves with a note on cold rigor.....	(34)	131
ASUYAMA, H.: On the period of infection of wheat seedlings by leaf rust, <i>Puccinia rubigo-vera tritici</i> .....	(35)	132
CHO, J.: The anatomical observation of the embryo in the rice.....	(2)	6
ENDŌ, S. and OKUTSU, H.: Two kinds of cones from the Neogene of Japan.....	(35)	133
FUJITA, T.: Statistische Untersuchungen über die Zahl der konjugierten Parastichen bei den schraubigen Organstellungen.....	(2)	7
FUJITA, T.: Statistische Untersuchungen über den Divergenzwinkel bei den schraubigen Organstellungen.....	(36)	134
*FUJITA, T.: Ueber die Organstellungen bei Maiskolben.....	(36)	135
FUKUSHI, T.: Retention of virus by the insect vectors through several generations.....	(36)	136
FUKUSHI, T.: Relation of aphids to the transmission of legume mosaics (2).....	(36)	137
FUKUSHIMA, E.: Acenaphthene as a polyploidizing agent.....	(37)	138
GOTO, K.: Anthracnose of <i>Digitalis</i> caused by <i>Colletotrichum fuscum</i> LAUBERT.....	(2)	8
HAGA, T.: The sex ratio of spinach.....	(37)	139
HAGIWARA, T.: On the inheritance of flowering time in <i>Pharbitis Nil</i> ....	(3)	9
HAGIWARA, T.: Studies in the linkage group of genes concerning variegated leaves of <i>Pharbitis Nil</i> .....	(3)	10

	Page	Entry
HAGIWARA, T.: On the linkage between a gene contracted and an inhibitor of white margined flower in <i>Pharbitis Nil</i> .....	(3)	11
HAGIWARA, T.: Blown and dwarf to be linked with contracted in <i>Pharbitis Nil</i> .....	(3)	12
HAGIWARA, T.: A new gene "crumpled 4" in linkage with a gene for speckled flower in <i>Pharbitis Nil</i> .....	(37)	140
HAGIWARA, T.: Genes for the colouration of flower-tube in <i>Pharbitis Nil</i> CHOIS. with reference to their linkage.....	(37)	141
HAGIWARA, T.: Distinction of males and females in <i>Asparagus</i> by using the solution of potassium chlorate.....	(38)	142
*HAMADA, M.: Studien über die Mykorrhiza von <i>Galeola septentrionalis</i> REICHENB. f. Ein neuer Fall der Mykorrhiza-Bildung durch intra-radikale Rhizomorphen. ....	(38)	143
*HANDA, T.: Some anatomical notes on <i>Cycas revoluta</i> , especially on its anomalous secondary growth.....	(38)	144
HANEDA, Y.: Einige Beobachtungen über die Leuchtpilze in den Südsinseln .....	(38)	145
HARA, H.: Observationes ad plantas Asiae Orientalis (XVI).....	(3)	13
HARA, H.: Preliminary report of the flora of Southern Hidaka, Hokkaido (Yezo) XXX-XXXVI. ....	(3)	14
HARADA, M.: Investigations on the development of resin canals and the formation of latex in the mesocarp of fruits of <i>Rhus</i> plants found in Japan. ....	(39)	146
HASHIOKA, Y.: Specialization in <i>Sphaerotheca fuliginosa</i> (SCHLECHT.) POLL. ....	(4)	15
HATUSIMA, S.: Araceae novae micronesicae.....	(39)	147
HATUSIMA, S.: Contributiones ad dendrogiam Nipponiae Australis (V) ..	(39)	148
HEMMI, T. and IKEYA, J.: Studies on <i>Lenzites gibbosa</i> (PERS.) HEMMI n. comb. causing wood-rot of deciduous trees.....	(40)	149
HEMMI, T. and NIWA, S.: On <i>Botrytis</i> rot of stored onion.....	(40)	150
HIRAI, T.: Studies on the sclerotium disease of bananas.....	(4)	16
HIRAMATU, K.: On the effect of the increase of light intensity on the shade leaves, with special reference to the carbon assimilation.....	(4)	17
HIRAMATU, K.: The relation of CO <sub>2</sub> -assimilation activity to the age of evergreen leaves. ....	(40)	151
HIRATSUKA, N.: Miscellaneous notes on the East-Asiatic Uredinales with special reference to the Japanese species (IV).....	(5)	18
HIRATSUKA, N.: Japanese species of <i>Gymnosporangium</i> .....	(41)	152
HIRAYAMA, S.: Studies on the metabolism of some wood-destroying fungi .....	(5)	19
HONDA, M.: Nuntia ad floram japoniae XXXVI.....	(5)	20
HONDA, M.: Nuntia ad floram japoniae XXXVII-XXXVIII.....	(41)	153
HÔGETSU, K.: Ueber den Einfluss von Aussenfaktoren auf die Atmungs- und Assimilationsleistungen der Süßwasserpflanzen.....	(5)	21
HORIKAWA, Y.: Contributions to the bryological flora of Eastern Asia (VI). ....	(41)	154
HOTTA, T.: Contributions of the systematics of <i>Morus</i> in Japan VII. <i>Morus</i> in cultivation.....	(6)	22
IMAI, S.: Symbolae ad floram mycologicam Asiae Orientalis II.....	(6)	23
IMAI, S.: Studies on the Geoglossaceae of Japan IV.....	(6)	24
IMAI, S.: Fourth note on <i>Elaphomyces</i> in Japan.....	(41)	155
IMAZEKI, R.: Studies in <i>Ganoderma</i> of Nippon.....	(41)	156

	Page	Entry
IMURA, J.: On the effect of sunlight upon the enlargement of lesions of the rice blast disease.....	( 6 )	25
IMURA, J.: On the influence of sunlight upon the lesion enlargement of the helminthosporium disease of rice seedlings.....	( 7 )	26
INDOH, H.: Studies on the Japanese aquatic fungi. I. On <i>Apodactyella</i> sp. nov. ....	(42)	157
INOUE, Y.: Comparison of the ability of cellulose decomposition by culture strains of the rice blast fungus, <i>Piricularia Oryzae</i> BR. et CAV. ....	(42)	158
ITANO, A. and TSUJI, Y.: Studies on nodule bacteria XII. Influence of various iron compounds on the nodule bacteria of <i>Astragalus sinicus</i> (Genge). ....	( 7 )	27
ITO, S. and IMAI, S.: Fungi of the Bonin Islands III. ....	(42)	159
ITÔ, H.: Nuntia de filicibus japonensibus (VIII)-(X).....	( 7 )	28
ITÔ, H.: Distribution of fern genera in the Japan Archipelago.....	( 7 )	29
ITÔ, H.: Filices liukiunenses (1)-(4).....	( 7 )	30
IWATA, K.: Karyogenetische Untersuchungen der Bastarde zwischen Varietäten der Art <i>Aegilops triuncialis</i> .....	( 8 )	31
IWATA, Y.: Studies on the penetration phenomena in <i>Pseudoperonospora cubensis</i> BERK. et CURT.....	( 8 )	32
JIMBO, T.: Ecology of the purple and green bacteria in sulphur spring at Yumoto, Nikkô II. Hydrogen sulphide concentration of the bacterial habitat. ....	( 9 )	33
JIMBO, T.: Beobachtungen einiger thiotropher Seen Japans mit besonderer Berücksichtigung der Schwefelbakterien. ....	( 9 )	34
JIMBO, T.: Schwefelbakterien in den Sukanoyu-Thermen bei Hakkôda-Gebirge. ....	(43)	160
KAMBAYASHI, T.: Ueber eine neue Varietät von <i>Scapulariopsis Blochi</i> als Erreger einer Dermatomykose.....	( 9 )	35
KAMBAYASHI, T.: Ueber eine Art aus dem menschlichen Nagel kultivierte <i>Endodermophyton</i> -Art. ....	(43)	161
KAMIMURA, M.: Studies on the epiphyllous Hepaticae and their attached plants in Sikoku, Japan.....	(43)	162
KANDA, T.: Observations on <i>Eckloniopsis radicata</i> (KJELLM.) OKAMURA..	(43)	163
KANDA, T.: On the culture of zoospores of some Laminariaceae living in warm sea. ....	(44)	164
KANEHIRA, R.: Contributions to our knowledge of <i>Pandanus</i> of the Malay Peninsula and Borneo.....	(10)	36
KANEHIRA, R.: On the Micronesian species of <i>Cycas</i> .....	(10)	37
KANEHIRA, R. and HATUSIMA, S.: An enumeration of plants collected in the territory of New Guinea, Australian mandate I-II.....	(10)	38
KANEHIRA, R. and HATUSIMA, S.: An enumeration of plants collected in the territory of New Guinea, Australian mandate III.....	(45)	165
KANEHIRA, R. and HATUSIMA, S.: New and noteworthy trees from Micronesia. ....	(45)	166
KAWAI, I.: On the intracellular bodies associated with the dwarf diseases of mulberry trees. ....	(45)	167
KIHARA, H. und KISHIMOTO, E.: Erzeugung polyploider Individuen durch Colchicin bei <i>Celosia cristata</i> .....	(45)	168
KIMURA, A.: Symbolae iteologicae VI. ....	(10)	39
KIMURA, A.: Symbolae iteologicae VII. ....	(45)	169
KIMURA, Y.: Hypericum japonicarum description I. ....	(10)	40

	Page	Entry
KIMURA, Y.: Sur le groupe d' <i>Hypericum pseudopetiolum</i> (I)-(II)....	(45)	170
KINOSHITA, S.: Ueber die Wirkung des Wuchsstoffes auf die Bewegung des Plasmodiums. ....	(11)	41
KINOSHITA, S.: Ueber den Einfluss des Wuchsstoffes auf die Protoplasmaströmung bei den Myxomyceten-Plasmodien. ....	(46)	171
KINOSHITA, S.: Ueber die Potentialverteilung und den Wuchsstofftransport bei den Keimpflanzen von <i>Helianthus annuum</i> und <i>Pisum sativum</i> . ....	(46)	172
KINOSHITA, S. und KASAHARA, Z.: Ueber die Wirkung des Wuchsstoffes auf die Wurzelbildung. ....	(47)	173
KISITANI, T. und SUMIYOSI, T.: Ueber den Entwicklungszyklus einer Violacein bildenden Bakterie. ....	(47)	174
KITAMURA, S.: Les <i>Cacalia</i> du Japon. ....	(11)	42
KITAMURA, S.: Expositiones plantarum novarum Orientali-Asiaticarum 4. ....	(48)	175
KOBAYASI, Y.: On the genus <i>Tremella</i> and its allies from Japan. (Fungorum ordinis Tremellales studia monographia II).....	(48)	176
KOBAYASI, Y.: Fungi austro-japonicae et micronesiae. ....	(48)	177
KOIDZUMI, G.: New species of <i>Sedum</i> . ....	(11)	43
KOIDZUMI, G.: Two new species of <i>Cynanchum</i> . ....	(11)	44
KOIDZUMI, G.: Bambusaceae japonicae VI. ....	(11)	45
KOIDZUMI, G.: Contributiones ad cognitionem florum Asiae Orientalis. ....	(48)	178
KONDÔ, M., TAKAHASHI, R. and TERASAWA, Y.: Experiments on the jarowization of wheat. ....	(11)	46
KORIBA, K. and MIKI, S.: On <i>Palaedictyon</i> and fossil <i>Hydrodictyon</i> . ....	(49)	179
KOSHIMIZU, T.: Germination power and buoyancy of the seeds in fresh and sea water. ....	(49)	180
KOZLOFF, I. V.: Genus <i>Nitraria</i> (Family Zygophyllaceae) ....	(49)	181
KUNIEDA, H.: On the life-history of <i>Porphyra tenera</i> KJELLMAN. ....	(50)	182
KUNIEDA, H. and SUTÔ, S.: The life-history of <i>Colpomenia sinuosa</i> with special reference to the conjugation of anisogametes. ....	(11)	47
KURITA, M.: Chromosomes bei einigen Laubmoosen. ....	(51)	183
KUWADA, Y., SINKE, N. and NAKAZAWA, Z.: The hydration and dehydration phenomena in mitosis II. A consideration of the spiral stage with the results of experiments and observation. ....	(51)	184
LAMB, M.: A new cephalopodioid <i>Lecidea</i> from Japan. ....	(12)	48
MARUKAWA, H.: Plankton in sea near the Southern Archipelago. ....	(51)	185
MASAMUNE, G.: Miscellaneous notes on the flora of Eastern Asia VI. VII, VIII. ....	(52)	186
MASAMUNE, G.: Continental elements in the floral districts of Formosa. ....	(52)	187
MASAMUNE, G. and SUZUKI, T.: <i>Dryopteris barbigera</i> OK., new to the alpine flora of Taiwan. ....	(52)	188
MASUMOTO, S.: Ueber den Einfluss der Erhitzung während der Aufbewahrung auf die Keimung des Tabalsamens. ....	(52)	189
MATSUMOTO, T.: Two strains of <i>Petunia</i> mosaics. ....	(53)	190
*MATSUMURA, S.: Weitere Untersuchungen über die pentaploiden <i>Triticum</i> -Bastarde IX. Aequations- und Zertationskreuzungen des Bastards <i>T. durum</i> × <i>T. vulgare</i> . ....	(12)	49
MATSUURA, H.: Chromosome studies on <i>Trillium kamschaticum</i> PALL. XV. A simple new method for the demonstration of spiral structure in chromosomes. ....	(12)	50
MATSUMI, S.: Ueber die pH-Veränderung der Mediumflüssigkeit und den davon abhängigen Zustand der Blatt-Zellen von <i>Helodea densa</i> . ....	(12)	51

	Page	Entry
MATUSIMA, S.: Ueber den Einfluss der Kation und CO <sub>2</sub> von Bicarbonaten auf die Assimilation bei <i>Helodea densa</i> .....	(53)	191
MIDUNO, T.: Chromosomenstudien an Orchidaceen II. Somatische Chromosomenzahlen einiger Orchideen.....	(54)	192
MIKI, S.: On the remains of water plants in Asia.....	(54)	193
MIKI, S.: On the remains of <i>Pinus trifolia</i> n. sp. in the Upper Tertiary from Central Honsyô in Japan.....	(54)	194
MITUNO, M.: <i>Sphaerophorus</i> -Arten aus Japan.....	(13)	52
MIYAKE, M.: Mendelian inheritance of the resistance against the virus disease in wheat strains.....	(55)	195
MIYOSHI, M.: Ueber die Verschiedenheit der Blütenfarbe von <i>Hanashobu</i> ( <i>Iris ensata</i> THUNB.) in ihren Assoziationen.....	(55)	196
MIYOSHI, M.: Ueber das Vorkommen einer Trauertanne auf dem Berge Tarebora in Centraljapan.....	(55)	197
MOMOSE, S.: Studies on the gametophyte of ferns (VI). On the prothallium of eudryopteroid ferns (2).-(VII). On the prothallium of some athyroid ferns.-(VIII). ....	(13)	53
MOMOSE, S.: Studies on the gametophyte of ferns (IX). Further observations on the prothallium of eudryopteroid ferns.-Ibid (X).....	(55)	198
*MONZI, M.: Die Mitwirkung der Somata-Nebenzellen auf die Spaltöffnungsbewegung. ....	(13)	54
